SEARCH - THE KMC HEALTH SCIENCES LIBRARY & DEPARTMENT OF LIBRARY & INFORMATION SCIENCE, MAHE-MANIPAL WITH ELSEVIER INVITE YOU FOR THE WORKSHOP

The Role of AI in Health Practice, Research and Publishing

Thursday, 29th Jan 2026, 2:30 pm – 4:00 pm

Venue: Seminar Room, 4th Floor (Right Wing), KMC Health Sciences Library, MAHE, Manipal

This workshop opens with the current state of artificial intelligence (AI) in healthcare practice, sharing some leading areas of applications, challenges and future directions. It then dives into the transformative impact of AI on health research, highlighting its potential to revolutionize data analysis, predictive modeling, research output and patient care. We include examples of cutting-edge AI applications to support researchers. We will also address ethical considerations and challenges in integrating AI technologies within healthcare settings and health research, particularly the use of Generative AI in research writing. We conclude with the emerging needs in education as AI technologies become pervasive in practice

SPEAKER

Natasha Gulati
Customer Success Team Manager
ELSEVIER Health

Agenda:

- Overview of Artificial Intelligence
- AI Solutions in Healthcare Practice
- Impact of AI on Clinical Decision Making
- Impact of AI on Health Research & Publishing
